

Black Butte Ranch®

February 27, 2020

Dear Homeowner,

Please read carefully!

The Utilities Department, in conjunction with an outside contractor, will be performing work on the water distribution system starting on **April 6, 2020**. There are a number of mainline valves and fire hydrants that will be replaced due to age and poor functionality. In order to complete the project, water service to certain homes around the Ranch will be **SHUT OFF** for a period of *approximately 10 hours*. Additionally, if we are unable to secure the valves closest to the work being performed there is the possibility it will require us to close other valves to perform the work shutting off water to additional units.

If your unit is listed in Group A, your ***water will be shut off*** on the day shown for a period of approximately 10 hours on the date noted. **Group A water services - will be shut off between 7:30 -8:00am on the dated noted.**

If your unit is listed in Group B, you should be prepared for the ***possibility of a water shut off***, in the event the Utilities Department needs to close additional valves. This will only be determined after the work begins so we will be unable to notify in advance of a shut off.

***** If your home's water system has a recirculating pump, please ensure equipment is off prior service loss.**

The work completion dates may be subject to change. You will be notified immediately if the completion dates in your area changes. The 10-hour time duration that ***WATER SERVICES WILL BE OFF*** is an approximate duration and may also be subject to change. Water services may be off for a greater duration depending on unforeseen circumstances that could possibly arise while completing the project. We will do our best to minimize the downtime of water services being off.

Please call the Utilities Department with any questions you may have.

Sincerely,

Swen Petterson
Utilities Manager
Office: 541.595.1280

Group A: Primary - WATER SERVICES WILL BE SHUT-OFF

Location	Work Date
Golf Homes: will be shut-off
